Keywords: keyword 1, keyword 2, keyword 3 (max 3).

Abstract: Abstracts submitted to the 2nd *Workshop on Experimental and Computational Mechanics – WECM'23* (Pisa, Italy, 20–22 September 2023) shall be formatted according to the present instructions.

The main text of the Abstract shall be placed here. Figures, Equations, and Tables can be included: some examples follow.

Figure 1. A blue circle.

The area of the circle (Fig. 1) is given by

$$A = \pi r^2, \tag{1}$$

where r is the radius. Some results are shown in Table 1.

Radius (mm)	Area (mm ²)
2.00	12.57
4.00	50.27
8.00	201.06

Table 1. Some results from Eq. (1)

References should be recalled in the Abstract [1], where appropriate [2][3].

The final PDF should fit within one page in A4 paper size. Please, use the MS Word or LaTeX templates provided on the WECM'23 website: <http://wecm23.ing.unipi.it/>

Acknowledgements: Place here any acknowledgements (optional).
